Expertise

- Testing Skills:
  - Load Testing
  - API Testing
  - System Integration Testing
  - Mobile Testing
  - Manual Testing
  - Black Box Testing
  - UI/UX Testing
- Test Automation Skills:
  - JMeter
  - Selenium with Java
  - Appium
  - TestNG
  - Cucumber
  - Behavior-Driven Development (BDD)
  - Automation
  - Jenkins
- Database Skills:
  - Php my admin
  - SAP HANA Database Testing
  - SQL
  - DBeaver
- Quality Assurance and Testing Processes:
  - Software Testing Life Cycle (STLC)
  - Agile Methodologies
  - Scrum
  - Quality Assurance
  - Quality Control
- Tools and Technologies:
  - Jenkins
  - Postman API
  - Jira
  - Figma
  - Microsoft Excel
  - Browserstack & Lambda Test for Mobile Testing

Experienced QA Engineer with 4.3 years of expertise in manual and automation testing. Proficient in utilizing tools like Selenium, Appium, Java, API testing with Rest Assured, Postman, and ELK for effective logs checking and debugging, as well as adept in database testing. Known for identifying defects, tracking, and reporting issues, and fostering cross-functional collaboration to ensure top-notch software quality. Strong in test planning, test case design, and execution, consistently achieving project objectives. Quick learner and adaptable to new technologies and methodologies, ensuring optimal performance in all testing endeavors.

Experience

June 2023 - Present
Shiprocket , Gurugram
Quality Analyst
As a Quality Analyst at Shiprocket, I ensure the delivery of high-quality software solutions in the dynamic field of logistics and e-commerce. My responsibilities include debugging software issues, conducting load testing, and performing system integration testing. I leverage PHP, Java, TestNG, and Cucumber frameworks to develop and execute comprehensive API and automation tests. Utilizing tools such as Jenkins, Python, Selenium, and Postman API, I drive efficient testing and automation processes. I excel in applying Scrum methodologies, managing project workflows with Jira, and utilizing SQL and Microsoft Excel for data analysis and reporting. With a focus on quality assurance and adherence to Agile methodologies, I contribute to Shiprocket's success in delivering reliable solutions to clients.

June 2022 - May 2023
Reddoorz , Noida
Quality Assurance Engineer
During my tenure as a Quality Analyst at RedDoorz, I excelled in software testing and quality assurance. I collaborated with cross-functional teams to implement STLC methodologies, designed and executed comprehensive test automation strategies using Java and TestNG. I implemented BDD techniques with Cucumber, applied Agile methodologies, conducted mobile testing with Selenium and Appium, utilized Postman API for API testing, and performed SQL and SAP HANA database testing. I identified performance bottlenecks, conducted load testing, and utilized Microsoft Excel for data analysis and reporting.

June 2019 - May 2022
Testrinx Software Solutions Pvt. Ltd , Noida
Software Test Engineer
As a Quality Analyst at Testrinx Software Solutions, I have played a vital role in ensuring high-quality software solutions. I apply STLC methodologies, collaborate with cross-functional teams using Jira, and conduct manual testing with black box techniques. With expertise in SQL, I perform effective database testing. I utilize Postman API for comprehensive API testing, Figma for UI/UX testing, and develop mobile testing strategies. I maintain adherence to quality standards, collaborate with developers, and continuously enhance my skills. Committed to driving quality excellence, I contribute to the success of the development team at Testrinx Software Solutions.

Education

B.Tech in Electrical Engg.
Delhi Technological University
2016 - 2020

Diploma in Electrical Engineering
GB Pant Polytechnic
2012 - 2015

Projects

Project Name: SRX International

- **Tools/Technology:** JIRA, MS Excel, phpMyAdmin, ELK Logs, Jenkins, Postman, Slack
- **Description:** Streamlined cross-border logistics for global package delivery from India, utilizing JIRA, Excel, phpMyAdmin, ELK Logs, Jenkins, and Postman for efficient bug tracking, data management, and real-time logs analysis. Enabled Indian businesses to expand globally with reliable international shipping.

Project Name: Finance Project at RedDoorz

- **Tools/Technology:** JIRA, MS Excel, DBEaver, SapHanna, MySQL, Postman
- **Description:** Collaborated cross-functionally to ensure software quality, conducted database testing using DBeaver for SAP and MySQL databases, and maintained test artifacts for functional, regression, integration, and system testing.

Project Name: RedPartner Project at RedDoorz

- **Tools/Technology:** JIRA, MS Excel, Java Eclipse, Testng, Selenium
- **Description:** Designed and executed automated test cases with Java Selenium and TestNG, collaborated with the development team for feature validation, conducted manual testing, and managed test documentation for functional, regression, and system testing.

Project Name: Stanza Living Website Project

- **Tools/Technology:** JIRA, SOAP UI, JMETER, POSTMAN, MS Excel, MySQL, Figma, Confluence, Browser Stack, Lambda Test
- **Description:** Conducted smoke, manual, regression, and data validation testing, wrote test plans and cases, performed API and database testing, and actively participated in Agile/Scrum processes.

Project Name: Interwiz.uk

- **Project Description:** Utilized 4G LTE technology to deliver high-speed broadband connectivity. Conducted manual testing using boundary value analysis on the PHP platform.
- **Tools/Technology:** JIRA, MS Excel
- **Description:** Performed smoke, manual, regression, and data validation testing, wrote test plans and cases, attended Scrum calls, and reported issues and status to onsite members**.**

Project Name: Pharmacy E-commerce Website and App Project

- **Tools/Technology:** JIRA, Browser Stack, Appium, Postman, MS Excel , Appium Inspector, Android Studio , X Code
- **Description:** Managed end-to-end testing for a pharmacy e-commerce website and mobile app. Conducted smoke, sanity, and regression testing on mobile devices using Browser Stack. Implemented mobile automation with Appium for efficient testing. Utilized Postman for API testing and MS Excel for test management. Ensured the reliability and usability of the platform for users seeking pharmaceutical products online.

With a diverse range of projects spanning logistics, finance, hospitality, and e-commerce, I have demonstrated my expertise in various testing methodologies, tools, and technologies to ensure the delivery of high-quality software solutions.
